

**Can You See**  
***David Walker***

Eb – Cm7 - Ab - Eb

I can see your healing raining down, coming down from the clouds, coming from the clouds.

I can see salvation is springing forth, coming through the pavement cracks, rising up from the ground.

Beautiful Father, your loves come down to us, loves come down to us, picked up all the pieces of our hearts

Eb – Cm7 - Ab - Eb

I can see now we were born to fly, rising on your wings high above everything

I can see injustice breaking down, falling down at your name, the name above every name.

Wonderful Savior, how you've rescued us, how you've rescued us, pick up all the pieces of our hearts
